

FIRE AND SECURITY FOR DEFENCE

Fire protection and security systems, protecting people, property and assets for defence and national security

Scutum UK's fire and security solutions provide the highest level of protection for some of the UK's largest defence organisations, from military manufacturers and submarine facilities to aerospace. Defence facilities present a higher fire and security risk. Very early fire detection, intelligent access control and CCTV security systems are crucial in protecting such sites and preventing massive potential loss.

HIGHEST LEVEL OF PROTECTION

Scutum's intelligent, networked access, CCTV and intruder security systems provide the highest level of security with reporting tools for full auditing of access in and out of secure areas.

ACCREDITED & CERTIFIED

Scutum is fully accredited and ATEX certified, providing solutions over 30 years. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

Scutum is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an Scutum system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
