

FIRE AND SECURITY FOR FOOD & BEVERAGE

A proven track record in protecting some of the
UK's most prestigious distilleries & food producers.

The production and storage of alcohol in particular poses a significant fire risk. High hazard atmospheres created in the production process can require our ATEX certified solutions. Our very early smoke detection systems protect tightly packed, high value, flammable goods that need to be stored for long periods before being distributed.

- NORTH BRITISH DISTILLERY
- CHIVAS BROTHERS
- GLEN TURNER COMPANY
- WILLIAM GRANT AND SONS
- SIMPSONS MALT
- INCHDAIRNIE DISTILLERY
- BAKKAVOR GROUP
- ABP FOOD GROUP
- THE ICE CO

ACCESSIBLE YET SECURE

Our intelligent, networked security solutions protect against theft and vandalism, particularly in areas that are designed to be easy to access for loading and unloading of goods. Effective fire protection is paramount in preventing significant damage to expensive products for distilleries and other high hazard food and beverage production facilities.

ACCREDITED & CERTIFIED

Scutum is fully accredited and ATEX certified, providing solutions for over 30 years. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

Scutum is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an Scutum system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
