

**SCUTUM**

Shielding your future

FIRE AND SECURITY FOR UTILITIES & TRANSPORTATION

Protecting staff, assets, continuity of power & transportation, critical to infrastructure and the economy.

Our fire and security solutions ensure that assets and staff are protected and that damage and interruption is minimised, protecting the continuity of power supply. Passenger safety and service performance are vital to the public and to the success of transport operators. Scutum UK's fire and security solutions help provide safe passage for millions of people and valuable cargo.

SAFETY, PERFORMANCE & CONTINUITY

Safety and performance are critical to public perception and the success of transport operators. Our solutions help to increase operational efficiency. Every power generation facility is a unique fire and security challenge. We understand and work around these challenges to protect the continuity of power supply.

ACCREDITED & CERTIFIED

Scutum is fully accredited and certified, providing solutions for over 30 years. Our in house team of consultants, designers, and fire risk assessors ensure that the systems we install are best-in-class and comply with legislation.

COMPLETE FIRE & SECURITY SOLUTION

Scutum is a single-source provider for fire, security and safety solutions. Systems can be networked and integrated, improving ease of use and streamlining building operations.

A LONG TERM RELATIONSHIP

The installation of an Scutum system is only the beginning of a long term relationship. Our maintenance agreements, 24/7 emergency service and local support ensure the long term safety and security of your site.
