SCUTUM GROUP UK

FIRE PROTECTION, SECURITY & REMOTE MONITORING SOLUTIONS

SCUTUM

Shielding **your future**

SCUTUM GROUP UK
Fire Protection | Security | Remote Monitoring

Scutum Group UK is a single-source provider of world class fire and security solutions, protecting the assets, property, staff and data of leading UK organisations for over 30 years. From our network of regional offices we have designed, installed, commissioned and maintained integrated systems at over 5000 sites across the UK. As part of the wider European Scutum Group we are a leader in fire, security and digital solutions.

Scutum Group UK

Scutum Group UK protects lives, property and assets with full management of security and fire protection projects. We design, supply, install and commission integrated fire and security systems for some of the UK's largest and most prestigious organisations.
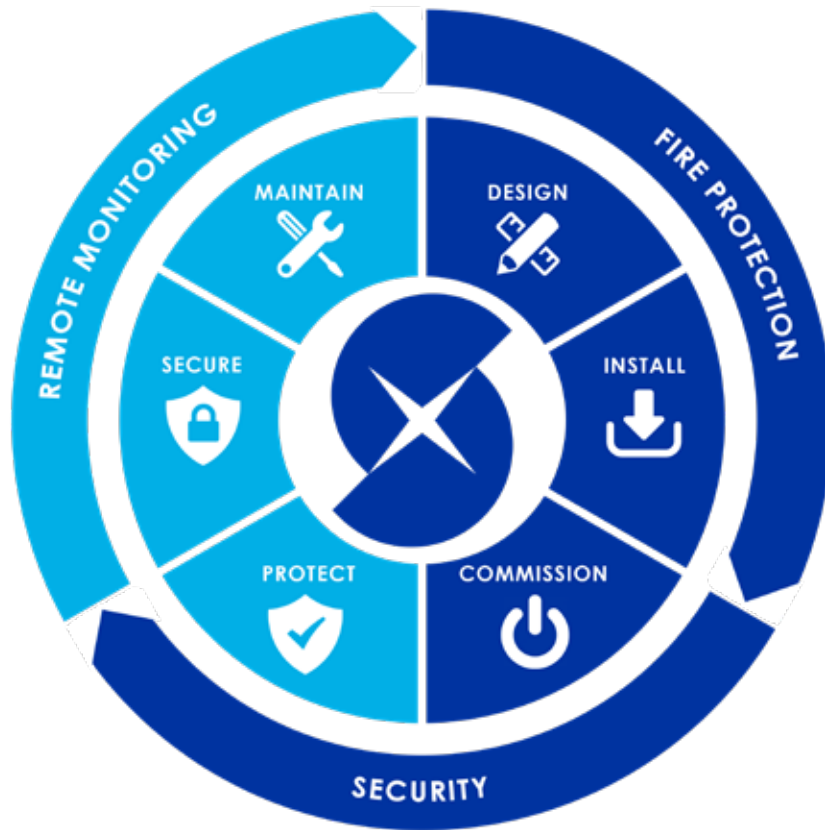

Scutum Digital

Scutum Digital provides industry leading alarm and CCTV remote monitoring, as well as protecting lone workers, vulnerable people and vehicle tracking. Our intelligent analytics and ARC staff provide the highest levels of protection for people, property and assets.

Companies within the Scutum UK Group are members of leading trade organisations and engage in a programme of rigorous 3rd party accreditations:

Single-Source Fire, Security & Monitoring Solutions

We design, supply, install, commission, test and maintain integrated fire protection, security and monitoring solutions. Through the larger European Scutum group, we also provide digital services and cyber security services, fully managing all fire and security system projects.

Fire

- Fire Detection
- Fire Suppression
- High Hazard
- Emergency Lighting
- Voice Alarm & Public Address
- Disabled Refuge & Fire Telephone
- Fixed & Portable Fire Fighting
- Signage

Security

- Access Control
- Door Entry
- CCTV
- Intrusion Detection
- Security Management systems
- Remote Assistance
- Perimeter Protection
- Geolocalisation

Design

Our expert teams design systems with tomorrow's evolving threats in mind. Designs are compliant to relevant standards and take place in-house using the latest software.

Install

Installation is carefully managed by our highly skilled installation teams, complying fully with all relevant British and European standards.

Commission

Our experienced commissioning team transition systems over to a fully active system in compliance with the relevant British or European Standards.

Protect

Our intelligent digital CCTV & alarm monitoring solutions ensure a prompt and informed response, to protect against hazards and crime, while reducing false alarms.

Secure

In a world where criminal activity and cyber threats become ever more sophisticated, Scutum ensures that your critical fire and security data are secured at all times.

Maintain

We protect existing systems, remotely via digital services or on-site with our technicians. We offer paths to upgrade, extend or modernise systems and infrastructure.

FIRE SOLUTIONS
Fire Detection | Fire Suppression

Fire Protection

Scutum Group UK is a single-source provider of complete fire detection, alarm and suppression systems. Systems are designed by our in-house engineers, tailored to the needs of our customers and proven to work in all environments, to significantly reduce the risks of fire-related damages to your business.

Detectors & Alarms

We offer one of the most extensive product ranges of high performance, resilient and versatile fire detectors and alarm devices. Our solutions are suitable and approved for use in any application, including marine approved, weatherproof, SIL approved, intrinsically safe or explosion proof, for the most hazardous of environments.

Suppression Systems

As well as typical handheld water, CO2, chemical or powder based fire extinguishers, we also provide bespoke automatic fire suppression systems, designed by in-house engineers. Our wide range of gaseous, water based or aerosol suppression systems are ATEX approved and designed to mitigate fire risks in the most hazardous of locations.

Safety Systems

We provide and install safety and emergency systems such as public address and voice alarm (PAVA), emergency voice communication (EVC) and emergency lighting systems. In the event of an emergency our systems ensure the safety of staff and the general public, providing clear communications and evacuation emergency lighting.

High Hazard

Scutum Group UK's High Hazard division provides complete turnkey solutions and project specific development of optimised solutions to the oil, gas & petrochemical industries. Our range of specialised fire and security products and solutions are suitable for use in high hazard environments, with ATEX certified, intrinsically safe or explosion proof options.

SECURITY SOLUTIONS
Access Control | CCTV | Intruder

Security Solutions

Scutum Group UK offer a wide range of security products and services, including access control, CCTV, intruder detection and physical information management systems (PSIM). We provide innovative integration options and use best-in-class products through a diverse supply chain to ensure each system we install is scalable, future proof and resilient.

CCTV & Recording

We offer a huge range of camera, recording and intelligent video analytics solutions from the world's leading manufacturers. Our fixed bullet, fixed dome, PTZ, high resolution, thermal or specialist cameras can be installed to work alongside a legacy investment. Reliable NVRs provide a high definition storage solution and keep crucial evidence safe.

Access Control

Scutum Group UK offer a range of innovative access control solutions with advanced features and integration capabilities with intercom systems, time and attendance, HR or IT personnel databases. Systems can be stand-alone or networked to cover multiple entire buildings, multi-tenant applications, or multiple sites across geographic locations.

Intruder Detection

Scutum Group UK installs, monitors and maintains intruder systems that comprehensively secure business premises, assets, valuables and systems. Our modular systems can be wireless over wi-fi or Bluetooth, hard-wired or hybrid solutions, and can integrate with existing infrastructure to offer reliable early intrusion detection and avoid false alarms.

PSIM Systems

We offer intuitive, intelligent, integrated and scalable physical security information management systems, forming a strong backbone to any access control, surveillance or fire protection system. Our systems provide intuitive operation and efficient monitoring of all security aspects on site and can integrate with access control, CCTV and fire alarm systems.

SCUTUM DIGITAL
Alarm | CCTV | Lone Worker | Vehicle Tracking

Alarm Receiving Centres (ARC)

As part of Scutum Group UK we operate 2 NSI Gold CAT II Alarm Receiving Centres (ARCs) with over 35 years experience, using the latest technologies for the monitoring of intruder and fire alarms, CCTV, vehicles and lone workers/vulnerable people.

Alarm Monitoring

Scutum Group UK's alarm receiving centres (ARCs) monitor intruder and fire alarms, gas detectors, pressure alarms, freezer/boiler temperatures and much more. Monitoring is possible for virtually any application or environment. Our monitoring solutions provide a highly effective, rapid response using the latest technology.

CCTV Monitoring

Our remote video response centre (RVRC) can monitor CCTV 24/7 and guarantees an immediate response from trained, dedicated and professional operators. As soon as an intrusion is detected the CCTV operators are notified, and after viewing the activation they are able to make the best decision on the next course of action.

Lone Worker Monitoring

Our lone worker monitoring centre provides 24/7 monitoring of bailiffs, enforcement officers, hotel reception staff, home visit nursing staff, council employees, security officers/engineers or key holders. A worker can be located by Global Positioning Satellites (GPS) which are then tracked once activated.

Vehicle Tracking

Scutum Group UK provides vehicle monitoring to the Thatcham CAT5, CAT6 and CAT7 standards. We have the ability to remotely communicate with vehicles, assisting in recovery, once police approval has been given. Our teams have exclusive direct line access to each of the 45 police forces throughout the UK.

SCUTUM INTERNATIONAL
UK | France | Germany | Benelux | US

" *Scutum*
(Scoo-tum) noun.

A large, impenetrable shield that provides protection and security. "

Scutum International

The Scutum Group ('Scutum' means 'shield' in Latin), is a leading provider of complete fire, security, safety and cyber security solutions, for some of the world's largest and most prestigious organisations. The company, founded in 1989, has become one of the main international players in safety, security and fire protection.

Through continuous investment in technology and expertise, the Scutum Group has grown into an international organisation with over 1,500 employees, and offices and remote monitoring centres throughout the UK, Europe and the United States.

The Scutum Group

Scutum Group UK is part of the Scutum Group, a leading European and US independent player in safety and security, serving over 380,000 sites across Europe and the US. Scutum provides highly reliable, innovative and customised equipment and services for all industries.

Scutum Group UK Locations

Scutum Group UK operates nationally from offices throughout the UK; strategically positioned to support our customers, offer the best possible solutions to meet their needs and provide a national reach with a personal service.
